RESULTS SUBMISSION

VET

This information sheet details the requirements for schools in submitting results to the SACE Board for vocational education and training (VET).

RECOGNITION ARRANGEMENTS FOR VET IN SACE

Recognition arrangements for VET in SACE are in place for students who wish to count VET qualifications or units of competency from VET qualifications towards the SACE. The recognition arrangements are outlined in the Recognition Arrangements for VET in SACE policy.

All recognition arrangements for VET in SACE will be granted in accordance with the VET Recognition Register.

DUE DATES

The due dates for the submission of VET results to the SACE Board are:

- *Wednesday 27 June** — Semester 1
- *Wednesday 5 December* — Semester 2.

**Friday 22 June* for Northern Territory schools.

Schools are advised to submit VET results to their registered training organisation 10 days before the dates shown above.

VET RESULTS RECORD

The VET results record (Form 36/12) is to be used by paper schools (or *DATEX Online* schools where the code for the VET qualification or unit of competency is not available) to record the results of a group or class of students who are undertaking VET units of competency.

The form is to be submitted to the SACE Board to enable any recognition to be calculated to help students to complete their SACE. Photocopy the VET results record sheet as necessary to record the results of separate class groups.

Whenever possible, schools should submit results using *DATEX Online*.

NATIONAL COLLECTION OF DATA

The VET entry screen on *DATEX Online* and the VET results record (Form 36/12) require the inclusion of certain information. This information is collected to meet the national requirement for the collection of consistent VET data.
