# SACE International

World-class learning

**SACE**  
Board of SA

**SACE**  
International

South Australian  
Certificate of Education  
International

**Because SACE International is recognised** all over the world, it has been invaluable in helping me to pursue my academic goals.

The SACE International program helped me gain admission into one of the most prestigious Ivy League institutions in the United States – Cornell University, studying Communication and Applied Economics and Management.”

*Emilyn Teh*

**The SACE International** provided me with a great foundation for university life, not only building my subject knowledge but also improving my time management and communication skills.

The course was challenging at times, but it equipped me with the skills for even bigger upcoming challenges.

After completing the SACE International, I was accepted by the University of Bristol in the United Kingdom where I studied for a Bachelor of Science majoring in Geology.”

*Edwin Chiew Chang Xun*

**Hard work and discipline** was required throughout the SACE International program, just as it is now in my pharmacy studies at university.

As part of the overall assessment during the year, I wrote research papers and reports, did laboratory work, and gave presentations. This helped prepare me for university life.

SACE International gave me valuable knowledge and skills that will help me now and into the future.”

*Ng Ee Von*

# World-class qualification

**SACE International is a world-class pre-university program that prepares students for successful study in the world's top universities.**

Taught in Asia since 1982, SACE International is widely regarded as Australia's leading pre-university program.

SACE International promotes both academic excellence and the development of the capabilities needed to be successful university students, enterprising workers, and global citizens.

Thousands of SACE International graduates have gone on to complete their university education around the world,

establishing successful careers in fields such as commerce, medicine, pharmacy, engineering, arts, and law.

SACE International is the official senior secondary qualification of the Government of South Australia. It is administered by the SACE Board of South Australia.

Graduates are awarded the South Australian Certificate of Education (SACE) by the SACE Board of South Australia. ■

# World-class learning

**The SACE International program provides students with world-class learning experiences.**

SACE International is a 2-year program typically studied in the final 2 years of schooling.

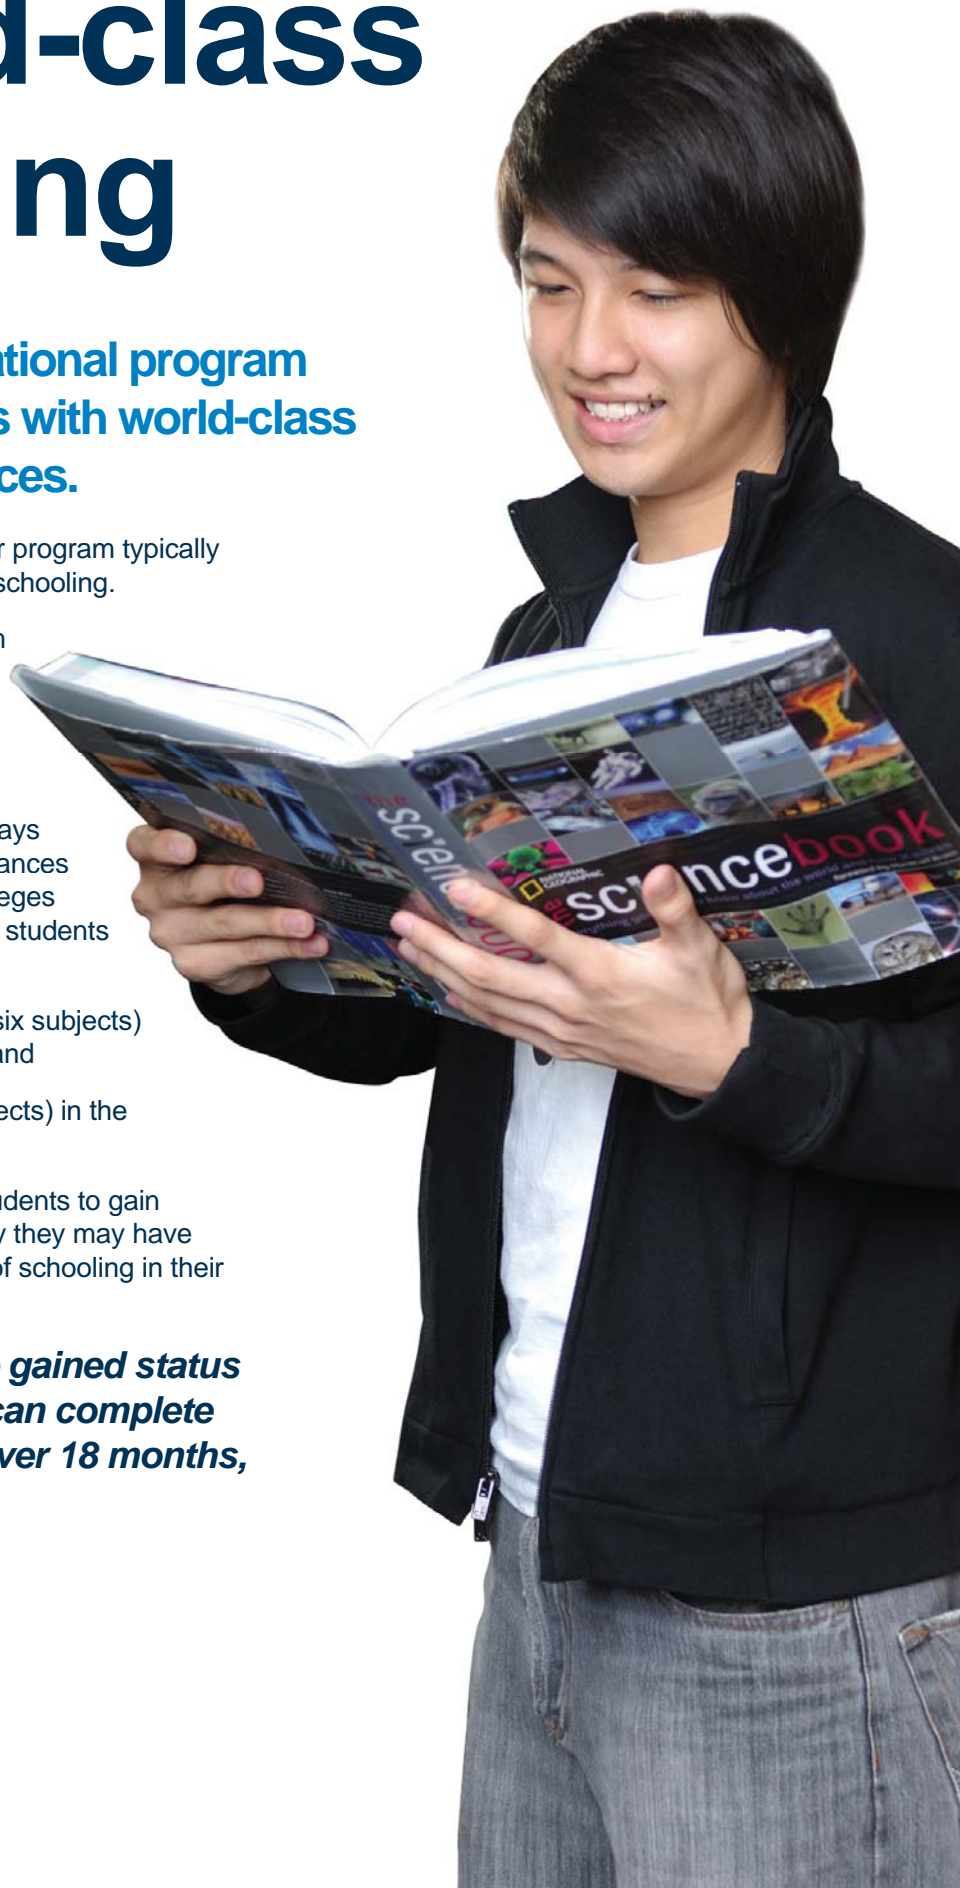

Students complete a minimum of 200 credits, where 20 credits is the equivalent of a full year of study in a subject.

Colleges can offer SACE International in a number of ways to suit their students' circumstances and aspirations. Typically, colleges offer programs that allow their students to complete:

- ◆ 100 to 120 credits (five or six subjects) in the first year (Stage 1), and
- ◆ 90 to 100 credits (five subjects) in the second year (Stage 2).

There are opportunities for students to gain substantial status for the study they may have undertaken in the final years of schooling in their own country.

***Where students have gained status for prior study, they can complete SACE International over 18 months, or even 1 year. ▣***

# Better thinkers, better learners

## SACE International prepares students to be better thinkers and learners.

Students develop the discipline and academic rigour that will prepare them for success in university and beyond.

### Developing capabilities

SACE International develops students' capabilities to:

- ◆ grow as a person and as a contributing member of society
- ◆ understand, develop, and apply new knowledge and skills
- ◆ think critically and creatively
- ◆ research significant questions and problems
- ◆ find new solutions to problems
- ◆ be enterprising and think globally
- ◆ be flexible and responsive to changing circumstances
- ◆ interact and collaborate
- ◆ be attuned to diversity, and act ethically with intercultural sensitivity.

### Choice in subjects

The subjects offered in the SACE International program provide excellent preparation for a variety of careers, including health sciences (medicine, dentistry, and pharmacy), sciences (engineering and information technology), business (commerce), arts (architecture, design, and performing arts), and law.

SACE International is typically studied over 2 years. In each year of study, students choose the equivalent of five year-long subjects from over 60 available subjects, including:

- ◆ English as an Additional Language
- ◆ English Communications
- ◆ Accounting
- ◆ Biology
- ◆ Business and Enterprise
- ◆ Chemistry
- ◆ Design and Technology
- ◆ Economics
- ◆ Information Technology
- ◆ Legal Studies
- ◆ Malay Background Speakers
- ◆ Mathematical Methods
- ◆ Modern History
- ◆ Music
- ◆ Nutrition
- ◆ Physics
- ◆ Psychology
- ◆ Research Project
- ◆ Specialist Mathematics
- ◆ Visual Arts. ▾

**I chose the SACE International program** because I wanted to continue my studies overseas.

The SACE International teachers helped me develop good study habits. I became a hard-working, well organised, independent learner.

I am currently studying Biological Sciences at Cambridge University in the UK.”

*Chao Ye*

**The SACE International program** encourages you to think and apply theories you learn in the classroom to real-life situations. It makes you focus on thinking skills, rather than memorising facts.

As 70% of your final grades come from coursework, you need to work consistently throughout the year. Through the coursework, I gained valuable skills such as time management, teamwork, and cooperation.

I received an Australian Tertiary Admission Rank of 99.9. I won a scholarship from the University of Hong Kong to study for a Bachelor of Economics and Finance.”

*Ho Chui Yee*

**The SACE International** is helping me to prepare for the challenging road ahead by providing me with the knowledge and skills I need.

I intend studying medicine at the International Medical University in Malaysia.”

*Ruevan Jude Ratnesh*

# Opening doors to top universities

**The SACE International program prepares students for rigorous academic study and helps them develop independent learning skills.**

SACE International graduates have enrolled in courses of their choice in the top universities in Australia, the United States, Canada, the United Kingdom, Hong Kong, Singapore, Malaysia, and many other countries.

SACE International graduates have entered prestigious universities around the world, including:

- ◆ Adelaide University
- ◆ Australian National University
- ◆ Cornell University
- ◆ Flinders University
- ◆ London School of Economics and Political Science
- ◆ Melbourne University
- ◆ National University of Singapore
- ◆ University of Cambridge
- ◆ University of Hong Kong
- ◆ University of Oxford
- ◆ University of South Australia.

## Entering universities

In the final year of SACE International, students select five subjects based on what they plan to study at university. The final

grades for each of these subjects provides the basis for the calculation of the Australian Tertiary Admission Rank (ATAR) — a ranking used by universities around the world to assist them in selecting students into courses.

Students' final grades for each subject are calculated from school assessments (70%) and external assessments (30%). This allows students to build on their knowledge and skills throughout the year, accumulating marks towards their final score as they study.

## Advantages of SACE International

- ◆ An interesting curriculum that focuses on knowledge, critical thinking, enquiry, and problem solving
- ◆ Proven learning techniques tailored to university study
- ◆ A wide choice of subjects leading to a variety of university courses
- ◆ A mixture of coursework (70%) and external assessments (30%)
- ◆ A program that can be completed in 2 years, 18 months, or even 1 year
- ◆ Access to the top universities in the world
