

What is a vision statement?

The vision statement should be a clear and inspiring description of what the subject aims to achieve in the future. It's like a guiding star—defining aspirations and setting a long-term direction. Think of it as answering the question: "Where do we want to go?" It's meant to be ambitious, motivating, and forward-thinking.

Guiding criteria:

- Makes clear what is unique to the subject
- Reflects the key drivers in the context of that subject
- Is focussed on the essence of the subject
- Future focussed

Vision statement

Industry Connections empowers students to become industry-ready by providing a flexible learning experience, where they can explore skills related to diverse career pathways or refine pre-identified career goals. Students will develop, apply, and transfer knowledge and skills that build both confidence and competence within their context.

Drawing on the unique experiences and aspirations of each student, Industry Connections supports varied entry and exit points and offers opportunities for both individual and/or collaborative learning. Students are encouraged to identify their strengths, reflect on areas for growth, and use adaptive thinking skills to take ownership of their learning.

By engaging with local and global perspectives, students gain insight into emerging opportunities and challenges, equipping them with the tools to navigate their next steps with clarity and purpose.

NB: as Subject Renewal Groups (SRGs) progress through the Subject Renewal process, plans and documents will be further refined and updated.
