

SACE International Program

Recommended Textbooks and Resources

Stage 2

Government
of South Australia

SACE
International

The SACE Board of South Australia does not require schools to use particular textbooks and/or student manuals to be followed during the teaching of a program. However, a list of suggested textbooks and teaching resources is provided to assist teachers and students.

Please note, not all the content in each textbook will be relevant for SACE subjects.

Teachers should select content and topics from textbooks what are relevant to SACE subject outlines.

The textbooks and resources suitable for:

Teachers

Students

Both Teachers and Students

Accounting

Accounting Workbook - SACE 2 - YEAR 12 - Essentials

Education - ISBN 978-1-925505-37-5

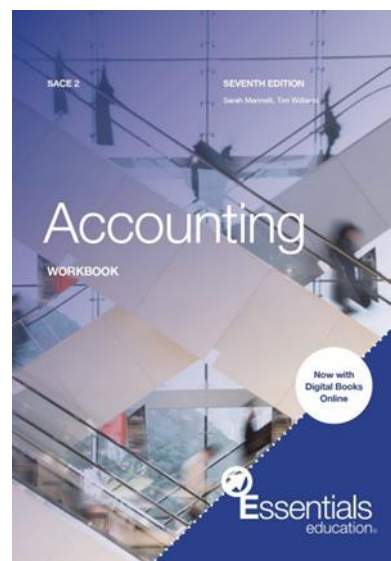

Author: Sarah Marinelli and Tim Williams Pages: 420

The SACE 2 Accounting Workbook is designed to meet the Subject Outline requirements of the SACE Stage 2 Accounting course.

The Essentials Accounting Workbook 7th Edition has been completely re-written for the updated SACE 2 Accounting Subject Outline. With a new author team of Sarah Marinelli and Tim Williams, this workbook will cover the SACE 2 Accounting Subject Outline with conceptual theory and a variety of question types & activities; making it an ideal resource for SACE 2 Accounting students and teachers. The SACE 2 Accounting Workbook 7th Edition also includes complimentary digital platform access.

SACE Stage 2 Biology Workbook

ISBN: 978-0-6455814-0-9

Here is a summary of what makes the third edition different to the second edition:

The new editions have expanded text in every chapter. The extra information deepens the reader's knowledge and application by transitioning their understanding from surface to deep.

The third edition of biology has more than 500 new questions including more questions on science as a human endeavour (SHE) and science inquiry skills. The new questions are designed to let students to apply their knowledge to new and familiar contexts.

The third editions have MUCH improved artwork which helps simplify concepts while bringing them to life.

The third editions have new topic tests that help students prepare for Skills and Applications Tasks (Tests).

The third editions also link directly to the brand new videos that will be available beginning at the start of Term 1, 2023. The second editions do not sync up with the videos at all.

SASTA Stage 2 Biology Videos - Topic 1

This set of videos covers SACE Stage 2 Biology Topic 1: DNA and Proteins. The twelve videos in this series are titled:

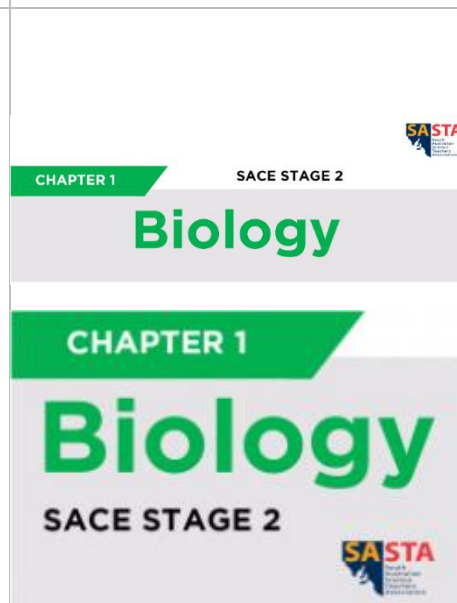

- 1.1 The Structure of DNA
- 1.2 The Replication of DNA
- 1.3 Genes
- 1.4 Protein Synthesis
- 1.5 Protein Structure and Function
- 1.6 Enzymes
- 1.7 Regulation of Gene Expression
- 1.8 Mutations
- 1.9 Polymerase Chain Reaction (PCR)
- 1.10 Electrophoresis and DNA Sequencing
- 1.11 DNA Profiling
- 1.12 Biotechnology

Each video is between five and ten minutes and covers one or more concepts in the Science Understanding section of the Subject Outline.

The videos are designed to be used in conjunction with SASTA's Stage 2 Biology, Chemistry and Physics Third Edition Workbooks, but may be used separately. Each video begins with an outline of the content covered followed by a narrated presentation using brilliant artwork and animation and concluding with a summary designed to simplify student learning.

The videos are highly engaging and concise, allowing you to learn the content quickly while preserving the flexibility to pause and rewind parts you wish to review. These videos are a must have for all Stage 2 students and their teachers!

https://www.sasta.asn.au/resources/online_catalogue/stage-2-topic-videos

Chemistry

2023 Topics Tests for Biology, Chemistry & Physics

SASTA is excited to make available sets of Topic Tests that may be used as formative or summative Skills and Applications Tasks (SATs) in Stage 1 Biology, Chemistry and Physics. These tests are of the highest quality and feature a comprehensive range of original questions including science understanding, science inquiry skills and science as a human endeavour.

All tests are out of 50 marks and are designed to be used as formative or summative assessments.

Each test is fully editable and comes with a comprehensive set of solutions which allows educators to modify each test depending on the capabilities of their student cohort.

The tests and exams include questions covering science inquiry skills (IAE) and science as a human endeavour (KA3).

The questions are all contextual and are based on contemporary examples to show students the relevance of science in the modern world (KA1 and KA2).

The questions in the biology tests can be cut and pasted into online testing software programs to provide students with a real-time exam experience.

Each task has a range of questions that vary in difficulty and are challenging enough to differentiate students with good core knowledge from those capable of applying knowledge in context.

The SHE questions can be part of the tests or you can remove them and use them as stand-alone tasks to develop student knowledge, understanding and ability in responding to these questions

2023 Stage 2 Trial Exams

The SASTA SACE Stage 2 Trial Exams are a 'must have' resource, developed by leading teachers to support SACE Stage 2 Teachers. This vital resource will familiarise teachers and students with the SACE Stage 2 exam format. Teachers will be able to use the resource for students, a stand alone assessment tool or to develop exam preparation skills.

The Biology, Chemistry and Physics exams include:

A range of questions that cover nearly every statement on the subject outline.

A blending of questions that incorporate concepts from different sections of the course to demonstrate connections between different areas of the course.

Questions that allow students to demonstrate near and far transfer of knowledge.

Science as a human endeavour (SHE) questions that allow students to develop their knowledge and understanding and explore the connections between science and society.

Science inquiry skills questions that allow students to interpret data and make logical and relevant conclusions.

Contextual questions that allow students to make connections and apply their knowledge to new and both familiar and unfamiliar contexts.

Questions that utilise local and global contexts.

Fully editable documents designed for use as formative or summative tasks.

Full-colour diagrams and illustrations where relevant.

Fully worked solutions for each question including a lengthy response to the SHE questions.

STAGE 2 TRIAL EXAMS

Child Studies

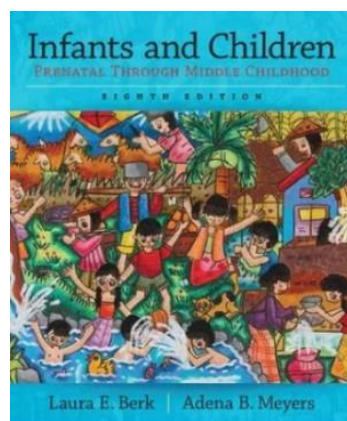

Infants and Children (prenatal through middle Childhood)

Authors: Laura E. Berk and Adena Meyers ISBN: 978-0133936-72-8

A best-selling, chronologically organised child development text, Berk and Meyers' *Infants and Children: Prenatal Through Middle Childhood* is relied on in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, rich examples, and long-standing commitment to presenting the most up-to-date scholarship while also offering students research-based, practical applications that they can relate to their personal and professional lives.

The authors take an integrated approach to presenting development in the physical, cognitive, emotional, and social domains; emphasise the complex interchanges between heredity and environment; and provide exceptional attention to culture.

Child Studies: How to write an Effective Investigation: SACE, Year 12 ISBN: 978-1-925505-13-9

Authors: Kathleen Dodgson, Leanne Jarvis, Pages: 84

The Essentials Workbooks are designed to support the teaching of SACE Stage 1 and 2 subjects in South Australia. The SACE 2 Child Studies Workbook provides a step-by-step guide for the Investigation component of the SACE Stage 2 Child Studies course.

The Child Studies Workbook is specifically written to help students and teachers tackle the 'Investigation' assignment in Year 12.

[Child Studies: How to write an effective Investigation - Essentials Education](#)

Chinese

Ni Hao 你好 (books 4 & 5)

Advanced Level - Ni Hao 4 is an advanced Chinese language course for senior school students. A different approach is used for this level. There are more opportunities for listening to unrehearsed text and for discussions in Chinese. Topics for this level reflect the diversity of senior students' lives: from school-based interests and activities to personal/social concerns about health, adolescence, part-time work, relationships, customs, technology and environmental issues.

There are four lessons in this book. Each lesson has three sub-topics and each sub-topic consists of six sections and three subsections.

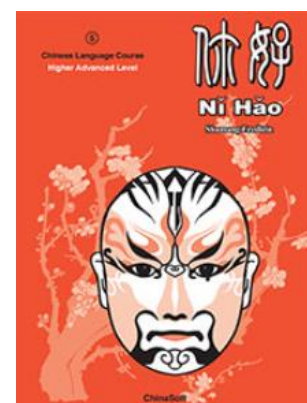

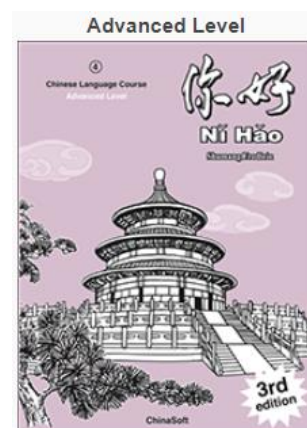

Higher Advanced level – Ni Hao 5

Ni Hao 5 is a further advanced level to Ni Hao 4 and is the fifth and final stage in the series. It is suited to senior high school students in grade 12. Students will be able to discuss their future plans, decision making, lifestyle choices as well as personal opinions on popular Chinese culture. They also learn to introduce their home-town or country, including its brief historical and geographical features.

In this level Pinyin is no longer used on new characters. Students are encouraged to use their knowledge of the Chinese language to decipher words and meanings to prepare them for reading real life material.

Ni Hao 5 includes wider range of vocabulary, phrases and popular expressions to allow students to hold descriptive and detailed conversations, express their opinions on topical issues and communicate articulately in a range of common situations.

There are four lessons in Ni Hao 5 and each lesson contains three sub-topics. Each sub-topic begins with a series of illustrations that reflect the main text on the following page. They are ideal for listening practices. The questions in the Listen and discuss section can be used to check understanding. Most of the new words, expressions and sentence patterns are introduced in the main text in the form of a dialogue, a narration or a special purpose form.

Creative Arts

There are no specific student texts because of the range of possible options available to students. These two texts are useful teacher resources.

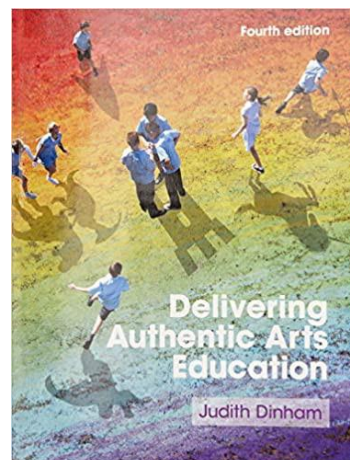

Delivering Authentic Arts Education by Judith Dinham

This market-leading text helps you develop the confidence, understanding and skills you need to teach arts, including dance, drama, media arts, music and visual arts. With a perfect balance between theory and practice, Delivering Authentic Arts Education outlines the key learning area of arts education and its importance in the curriculum. It also conveys creative activity and expression within a cultural context.

The text tells you how to recognise and build on your existing artistic abilities and teaching skills, how to encourage children's creativity and how to lead arts appreciation experiences. It also includes information on planning and assessment. New, print versions of this textbook come with bonus online study tools on the CourseMate Express platform.

ISBN: 978-0-170368-82-7

<https://au.cengage.com/c/delivering-authentic-arts-education-4e-dinham/9780170420594/>

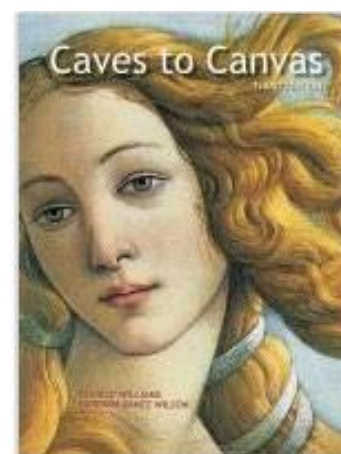

Caves to Canvas By Donald Williams, Barbara Wilson

Caves to Canvas is highly valued for its analysis of artists and artwork, from prehistoric times to the present day. Diary extracts, letters, reviews and media reports are used to introduce your students to the world of the artist, and help them to examine historical, social, political and religious influences on artwork. Extensively revised and updated, the third edition includes significant material on contemporary artists and is supported by a student CD-ROM.

ISBN: 978-0-170218-42-9

cengage.com.au/product/division/secondary/title/caves-to-canvas/isbn/9780170218429

Digital Technologies

There are no specific student texts for Digital Technologies due to the diverse range of topics and software that students choose to undertake as part of their course. These texts listed below may assist teachers as a starting point in ideas and getting students started.

Digital Technologies for the Australian Curriculum

Digital Technologies for the Australian Curriculum is a full-colour, write-in workbook written for the Australian Curriculum: Digital Technologies. It incorporates a project-based approach that allows teachers to engage students with in-class and at-home activities.

ISBN: 978-0-170411-82-0

<https://cengage.com.au/product/division/secondary/title/digital-technologies-for-the-australian-curri/isbn/9780170411820>

The Quick Python Book by Naomi Cedar

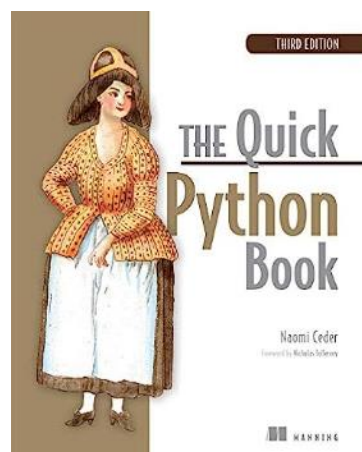

Manning Publications

The Quick Python Book, Third Edition, is a clear, concise introduction to Python 3, aimed at programmers new to Python. This updated edition includes all the changes in Python 3, itself a significant shift from earlier versions of Python. The book begins with basic but useful programs that teach the core features of syntax, control flow, and data structures. It then moves to larger applications involving code management, object-oriented programming, web development, and converting code from earlier versions of Python.

Naomi Cedar is chair of the Python Software Foundation. She has been learning, using, and teaching Python since 2001.

ISBN-13: 978-1617294037

English as an Additional Language

Unlock Series Level 3– 2nd Edition

Unlock – Level 3 – Reading, Writing and Critical Thinking Student's Book with Digital Pack - 2nd Edition

Authors: Carolyn Westbrook, Lida Baker, with Chris Sowton

ISBN: 9781009031400

Date Published: July 2021

<https://www.cambridge.org/au/cambridgeenglish/catalog/skills/unlock-2nd-edition/unlock-level-3-2nd-edition-reading-writing-and-critical-thinking-students-book-digital-pack?isbn=9781009031400&&format=DO>

(Level 3 recommended for SACE Stage 1 and Stage 2)

Critical thinking is at the heart of the course, fostering the skills and strategies your students need to tackle academic tasks when gathering and evaluating information, organizing and presenting their ideas, and then reflecting on them.

Unlock offers 56 hours of course material per Student's Book, which is extendable to 90 hours with the Digital Classroom material, Digital Workbook and other additional activities in the Teacher's Manual and Development Pack.

Unlock is a paired-skills course with two separate Student's Books per level. For levels 1–5 (CEFR A1 – C1), these are Reading, Writing and Critical Thinking and Listening, Speaking and Critical Thinking. They share the same unit topics, so you have access to a wide range of material at each level.

Unlock – Level 3 – Listening, Speaking and Critical Thinking Student's Book with Digital Pack - 2nd Edition

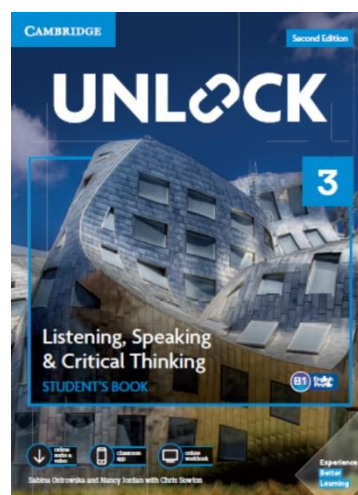

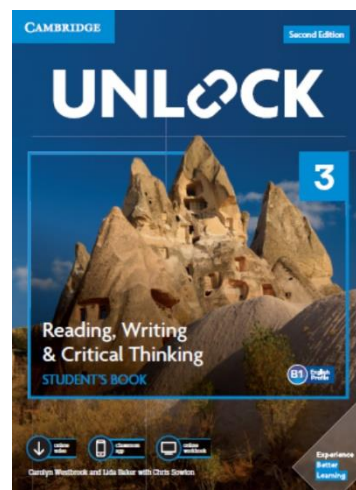

Authors: Sabina Ostrowska, Nancy Jordan, with Chris Sowton

ISBN: 9781009031479 Date Published: July 2021

<https://www.cambridge.org/au/cambridgeenglish/catalog/skills/unlock-2nd-edition/unlock-level-3-2nd-edition-listening-speaking-and-critical-thinking-students-book-digital-pack?isbn=9781009031479&&format=DO>

(Level 3 recommended for SACE Stage 1 and Stage 2)

Unlock your academic potential with this six-level, academic-light English course created to build the skills and language students need for their studies (CEFR Pre-A1 to C1). It develops students' ability to think critically in an academic context right from the start of their language learning. Every level has 100% new inspiring videos on a range of academic topics.

Headway Academic Skills - Level 2 - Reading, Writing, and Study Skills Student's Book

ISBN: 978-0-19-474160-6

Author: Sarah Philpot

Headway Academic Skills can be used independently or alongside a general English course book such as New Headway or New Headway Plus. The course focuses on developing the specific skills required for academic studies and exploring strategies for success in academic learning. It also offers guidance in key study areas and provides plenty of practice to encourage learner independence.

[Headway Academic Skills 2 Reading, Writing, and Study Skills Student's Book | Skills | Oxford University Press \(oup.com\)](https://www.oup.com/headway-academic-skills-2-reading-writing-and-study-skills)

Headway Academic Skills - Level 2 Listening, Speaking, and Study Skills Student's Book with Oxford Online Skills

ISBN: 978-0-19-474214-6

Designed for students moving on to academic studies or for those on a foundation program, the series focuses on improving students' academic skills by:

Developing the specific skills required for academic studies through a wide range of topics relevant to higher education.

Exploring strategies to help students with new vocabulary, and to record, vary, and build their vocabulary.

Offering guidance in undertaking research, and in acknowledging sources.

Providing plenty of guided practice as well as freer practice to encourage learner independence in both pdf and word format for adapting to individual class needs.

Teacher's Guides are available at each level, with lesson notes, background information, answer keys to the Student Book activities, and photocopiable extension activities.

The accompanying CD-ROM provides a range of tests. Class audio CDs are provided for the Listening, Speaking, and Study Skills titles.

Essential Mathematics

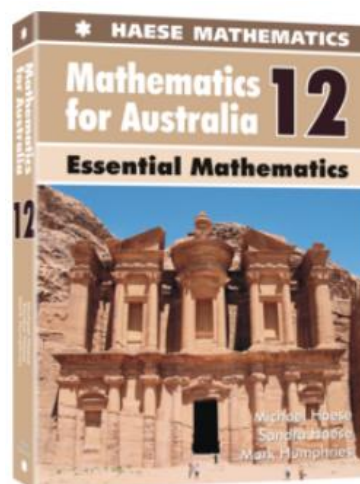

Mathematics for Australia 12 Essential Mathematics

Authors: Michael Haese, Sandra Haese, Mark Humphries
ISBN: 978-1-925489-00-2 Online ISBN: 978-1-925489-04-0

Mathematics for Australia 12 – Essential Mathematics has been designed and written for the Australian Curriculum. It addresses the content outlined in the ACARA Essential Mathematics Curriculum Units 3 and 4, as well as the SACE Stage 2 Essential Mathematics subject outline.

The textbook and interactive software provide an engaging and structured package, allowing students to explore and develop their confidence in mathematics. The material is presented in a clear, easy-to-follow style, free from unnecessary distractions, while effort has been made to contextualise questions so that students can relate concepts to everyday use.

Each chapter begins with an Opening Problem, offering an insight into the application of the mathematics that will be studied in the chapter. Important information and key notes are highlighted, while worked examples provide step-by-step instructions with concise and relevant explanations. Discussions, Activities, Investigations, Puzzles, and Research exercises are used throughout the chapters to develop understanding, problem solving, and reasoning, within an interactive environment. Extensive Review Sets are located at the end of each chapter.

French (Continuers)

Quoi de Neuf? – Books 3+4 Activity Book, 2nd Edition

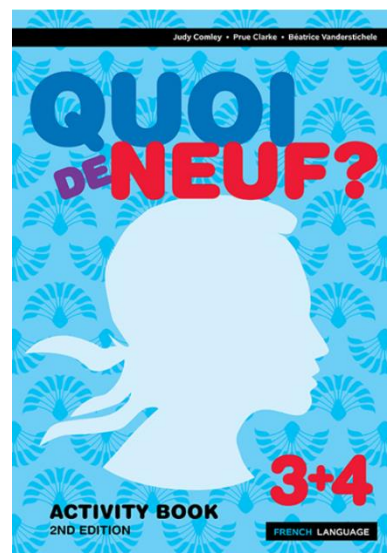

ISBN-13: 9781488625862

Authors: Judy Comley, Prue Clarke, Beatrice Vanderstichele

The write-in Quoi de Neuf ? 1-4, 2nd Edition Activity Books cater for a variety of learning styles, offering opportunities to practise and reinforce key skills and learning. Engaging activities offer support and differentiated learning opportunities whilst allowing students to track their progress for deeper motivation.

The Activity Books follow the learning progression of the Student Books and can be used in class or out of class as homework material and formative learning assessment.

General Mathematics

Mathematics for Australia 12 - General Mathematics

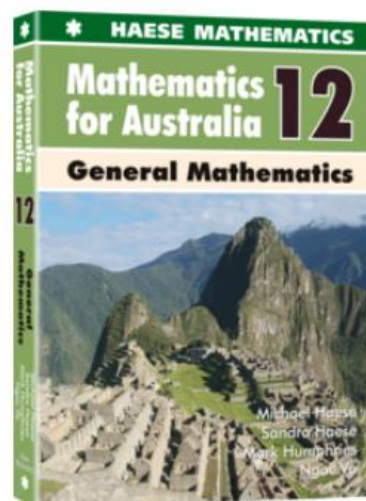

ISBN: 978-1-925489-01-9 Online ISBN: 978-1-25489-05-7

Mathematics for Australia 12 – General Mathematics has been designed and written for the Australian Curriculum. It addresses the content outlined in the ACARA General Mathematics (or WACE Mathematics Applications) Curriculum Units 3 and 4, as well as the SACE Stage 2 General Mathematics subject outline.

The textbook and interactive software provide an engaging and structured package, allowing students to explore and develop their confidence in mathematics. The material is presented in a clear, easy-to-follow style, free from unnecessary distractions, while effort has been made to contextualise questions so that students can relate concepts to everyday use.

Each chapter begins with an Opening Problem, offering an insight into the application of the mathematics that will be studied in the chapter. Important information and key notes are highlighted, while worked examples provide step-by-step instructions with concise and relevant explanations. Discussions, Activities, Investigations, Puzzles, and Research exercises are used throughout the chapters to develop understanding, problem solving, and reasoning, within an interactive environment. Extensive Review Sets are located at the end of each chapter.

Mathematics for Australia 12 - Specialist Mathematics

ISBN: 978-1-925489-03-3

Online ISBN: 978-1-925489-07-1

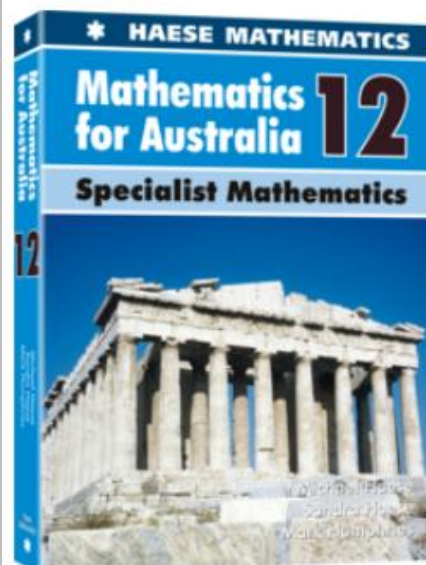

Mathematics for Australia 12 – Specialist Mathematics has been designed and written for the Australian Curriculum. It addresses the content outlined in the ACARA Specialist Mathematics Curriculum Units 3 and 4, as well as the SACE Stage 2 Specialist Mathematics subject outline.

Specialist Mathematics is the most rigorous course in the series, and we are aware that some of the topics will not have been previously taught by many teachers. We are therefore committed to providing clear explanations for this work to our usual high standard. We also provide guidance on how best to progress through this course in conjunction with Mathematical Methods.

The textbook and interactive software provide an engaging and structured package, allowing students to explore and develop their confidence in mathematics. The material is presented in a clear, easy-to-follow style, free from unnecessary distractions, while effort has been made to contextualise questions so that students can relate concepts to everyday use.

Each chapter begins with an Opening Problem, offering an insight into the application of the mathematics that will be studied in the chapter. Important information and key notes are highlighted, while worked examples provide step-by-step instructions with concise and relevant explanations. Discussions, Activities, Investigations, Puzzles, and Research exercises are used throughout the chapters to develop understanding, problem solving, and reasoning, within an interactive environment. Information Processing and Publishing

Applications

These are the applications that most schools use

Adobe Creative Cloud

- Photoshop – Image editing and manipulation including the creation of animated gifs
- InDesign – Page layouts for print. It offers more precision with typography and layout. It is a publishing program and is ideal for magazines, newspapers, brochures, multipage documents etc.
- Illustrator – Vector art enabling vectors to be resized without loss of quality.
- Dreamweaver – Web authoring software enabling users to work within the design and code view
- Acrobat DC – Creates interactive pdf documents. Important to use as part of the online submission of files.

These applications are not recommended:

The use of automated publishing software or supplied templates is not recommended

- Print Online templates
- Electronic Publishing applications: Wix, Wordpress, Weebly, Microsoft Sway and Adobe Pages

Legal Studies

SACE 2 YEAR 12 - Legal Studies 1st Edition

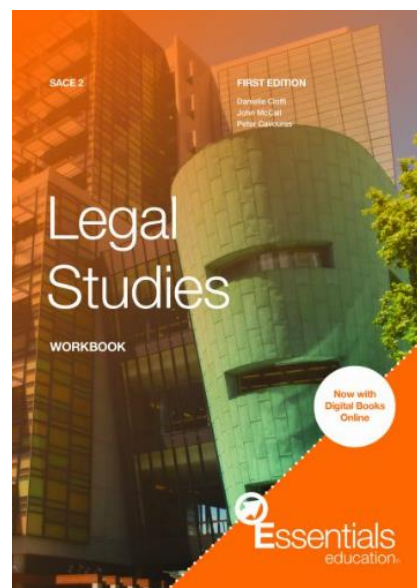

ISBN: 978-1-925505-40-5

Authors: Peter Cavouras Danielle Cioffi John McCall Pages: 339

The Essentials Workbooks and Key Ideas Textbooks are designed to support the teaching of SACE Stage 1 and 2 subjects in South Australia.

The SACE 2 Legal Studies Essentials Workbook 1st Edition is a product that has been written to address the updated SACE 2 Subject Outline in Legal Studies for 2021. With an author team of Danielle Cioffi and John McCall with Peter Cavouras as the Chief Editor, this new product consists of conceptual theory, questions, activities and links that address the updated SACE 2 Legal Studies course.

<https://essentialseducation.com.au/products/legal-studies-first-edition-2021/>

Nutrition

SACE 2 YEAR 12 - Nutrition 7th Edition

Authors: Vicki Dent & Anastasia Toumpas Pages: 523

ISBN: 978-1-925505-35-1

The Essentials Workbooks are designed to support the teaching of SACE Stage 1 and 2 subjects in South Australia. The SACE 1 Nutrition Workbook is designed to meet the Subject Outline requirements of the SACE Stage 1 Nutrition course.

The Seventh Edition is a completely new book written for the updated SACE 2 Subject Outline for Nutrition in 2021. The author team, Vicki Dent and Anastasia Toumpas have revised and updated the previous Sixth Edition Nutrition Workbook to incorporate more core knowledge, new questions, Topic Tests and a full-colour layout. An essential resource for all SACE Stage 2 Nutrition students.

The SACE 2 Nutrition Workbook 7th Edition also includes complimentary digital platform access.

This will be the latest edition for SACE2 Nutrition in 2023.

2023 Nutrition Study Guide

ISBN: 978-0-9803237-5-7

What's new for 2023?

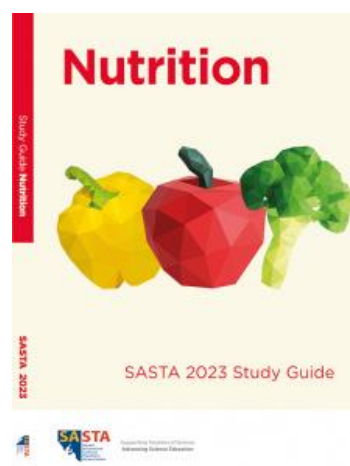

A range of questions with worked solutions for each topic of the Subject Outline.

Science Inquiry Skills & Science as a Human Endeavour chapters have been reworked allowing students to successfully prepare for both assessment types.

Additional SHE exam-style questions have been added to allow for greater test and exam preparation.

The inclusion of the 2022 SASTA Trial Examination and worked answers further supports students in their exam preparation.

Physics

Stage 2 - SASTA - Physics Workbook - 3rd Edition

ISBN: 978-0-9808605-5-9

The Stage 2 Physics Workbook 3rd Edition has been completely reviewed and improved with any needed corrections made.

To make sure that this edition is completely compatible with the second edition of the workbook, the page numbers and section headers have all been kept the same, hence the table of contents is identical for both editions.

Here is a summary of what makes the third editions different to the second editions:

The new editions have expanded text in every chapter. The extra information deepens the reader's knowledge and application by transitioning their understanding from surface to deep.

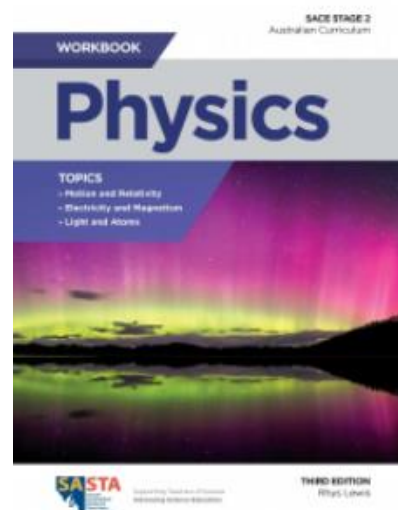

The third editions all have hundreds of new questions (and solutions) not seen in the second edition. The new questions are designed to let students to apply their knowledge to new and familiar contexts.

The third editions have MUCH improved artwork which helps simplify concepts while bringing them to life.

The third editions have new topic tests that help students prepare for Skills and Applications Tasks (Tests).

The third editions also link directly to the brand new videos that will be available beginning at the start of Term 1, 2023. The second editions do not sync up with the videos at all.

Spiritualities, Religion & Meaning

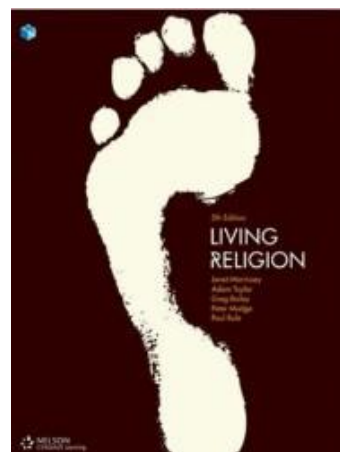

Living Religion, 4th Edition

Living Religion, fifth edition, explores the expression and practice of the world's various belief systems that have arisen as people have sought answers to the ultimate questions of human existence. Religion, however one defines it, is complex. It can be a cohesive force in society and, at the same time, a source of division. But the investigation of these different aspects is exciting.

ISBN: 9780170373364
