

This guide focuses on some of the features to help you make the best use of ABS Education Services (ES) resources. All of these resources are free.

The screenshot shows the ABS Education Services website. At the top is the Australian Bureau of Statistics logo and navigation links. Below is a search bar and a 'Welcome to Education Services' message. The main heading is 'Bringing Data to Life in the Classroom', followed by a paragraph about the project's purpose. Below this is a section titled 'Resources by Year Level' with buttons for F-Year 4, Year 5, Year 6, Year 7, Year 8, Year 9, Year 10/A, and Senior. At the bottom are three columns of links: 'About Education Services', 'Teacher Statistical Literacy', 'AC Support', 'Explore Data & Stats', 'Resources', and 'ABS Publications'. Each column contains a list of links to various resources.

This guide focuses on some of the features to help you make the best use of CensusAtSchool (C@S) resources. All of these resources are free.

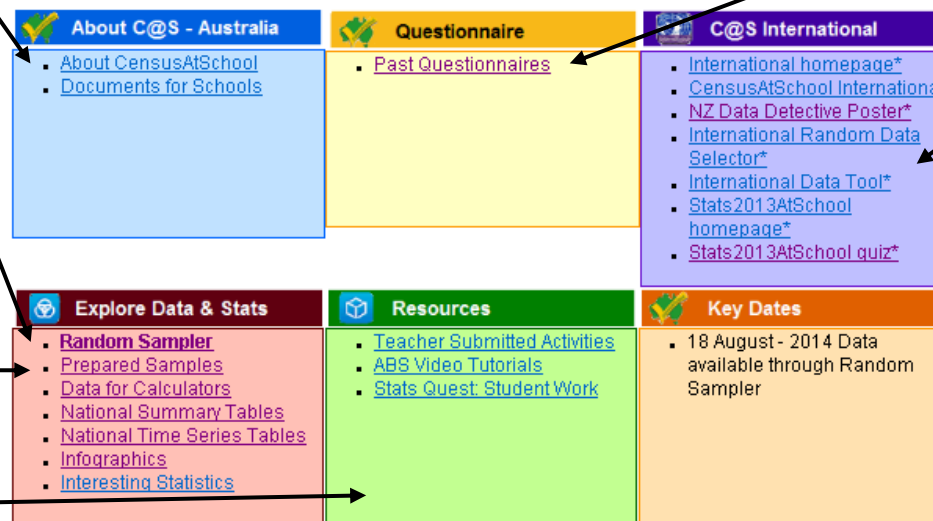

Australia's premier database of statistical information about students.

CensusAtSchool was a nation-wide project that collects real data relevant to students. It provided a snapshot of the characteristics, attitudes and opinions of those students who have completed questionnaires. [Find out more](#) about CensusAtSchool.

CensusAtSchool was a flagship project of ABS Education Services. As part of recently announced changes to the [ABS forward work program](#), this project, along with Education Services as a whole, concluded on 18 August 2014. CensusAtSchool data for 2006 to 2014 is available through the [Random Sampler](#). For additional assistance, please contact the [ABS National Information Referral Service](#) on 1300 135 070.
