

Discussion and Feedback

Session 1: Integration of the Australian Curriculum

How well do the range of subjects provide for the diversity of our students?

To what extent are the new subjects: worthwhile, engaging, innovative, diverse, manageable?

Session 2: Quality Assurance and Operational Implications for the new subjects

What are the implications for your school related to the planning phase of the new subjects?

Session 3: Maximising Student Success

What data sets are the most useful for your site?

Are there other data sets that would be useful to support analysis for your site?

At what time is intervention the most useful at Stage 1 and Stage 2?
