

PRE-CONFERENCE POLL

How well does our education system prepare students for the challenges of the 21st Century?

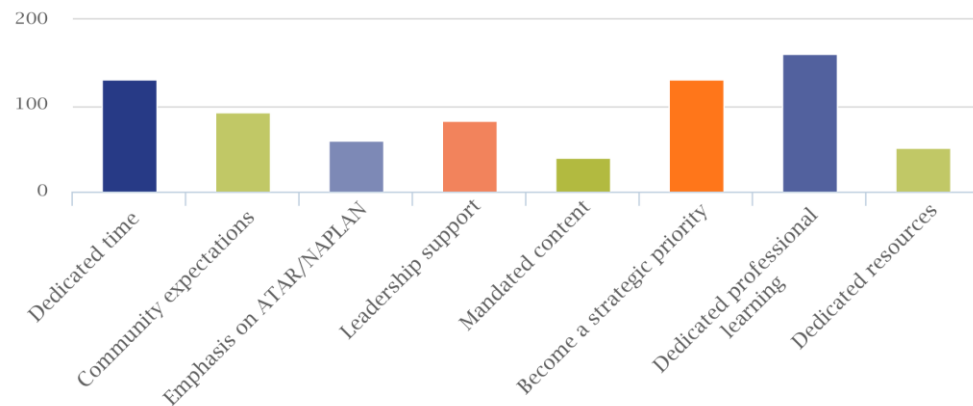

Do you have a major focus on integrating the capabilities into your teaching, learning and assessment design?

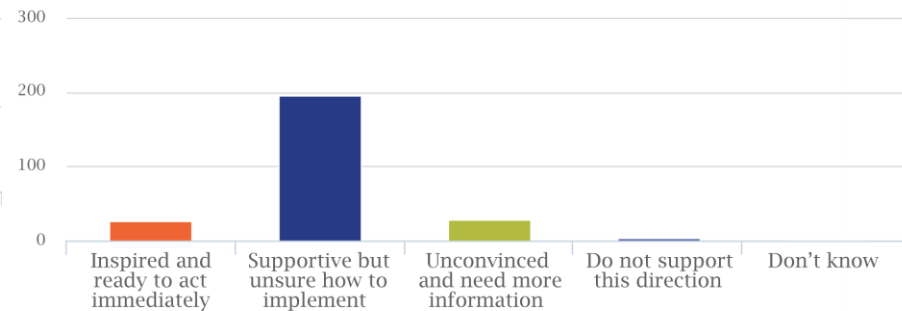

POLL 2

What needs to change to prepare students to succeed in the 21st Century? Select your top 3.

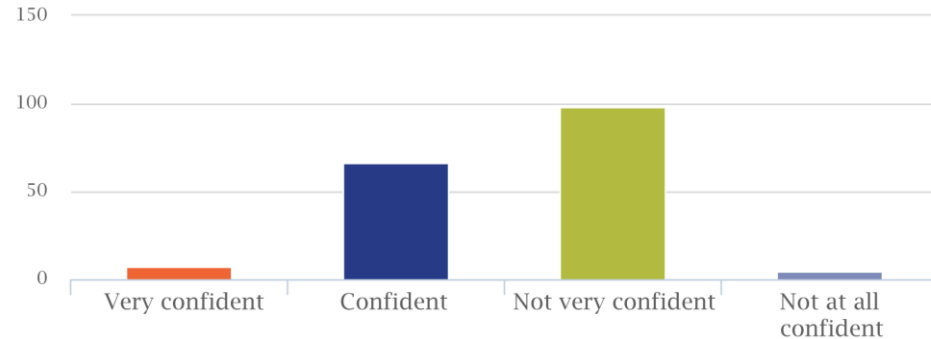

How committed do you believe Australia is to supporting the OECD vision for preparing students for the future?

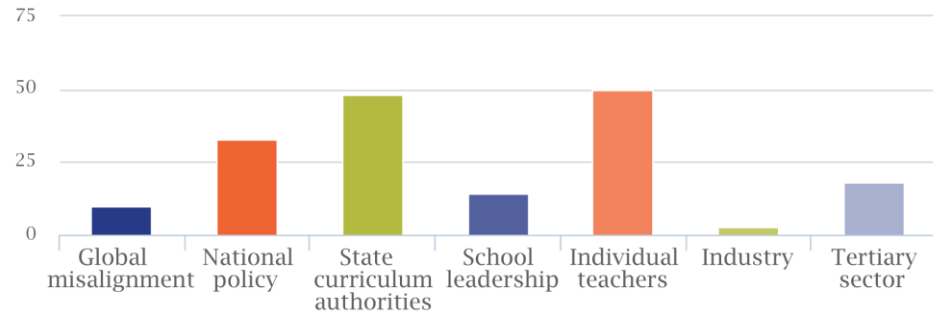

POLL 3

How confident are you that education systems will be able to validly and reliably evidence and track student development of the general capabilities?

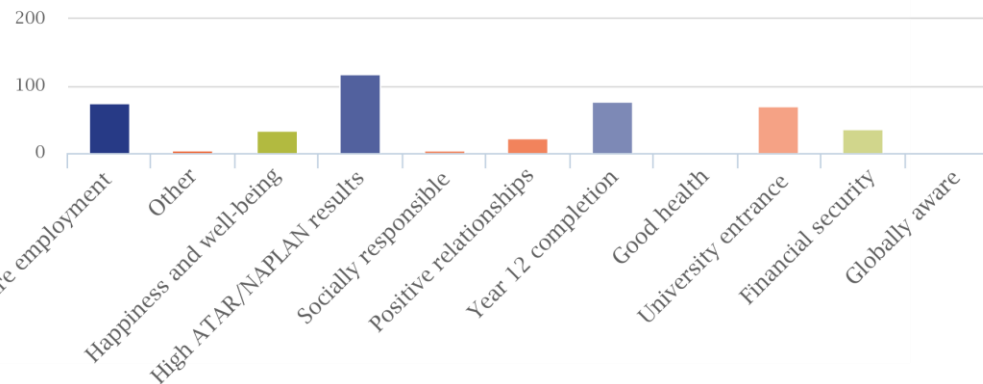

If education systems formally establish a process to track and evidence the capabilities, which of the following do you see as the greatest hurdle?

POLL 4

In your experience, how do students currently define success? Select your top 3.

How motivated are you to lead discussion at your school about reframing the definition of student success?
