Advice to students requiring a confidential medical practitioner's report for a serious medical condition (including illness) or a psychological disorder

- Approval of a request for the use of a derived result requires strong supporting evidence from the school and from a medical practitioner *who is not related to you*.
- For your application to be considered, the medical information provided must be more detailed than a 'medical certificate of sickness'.
- You may request the use of a derived result if you:
  - *are unable to attend an examination*. You must advise your SACE coordinator or principal as soon as possible and consult with your medical practitioner on the day of the examination.
  - *sat an examination or performed while impaired by a serious medical condition (including illness) or a psychological disorder*. You will need to consult your medical practitioner on the day of the examination. Do not miss an examination merely because you do not feel able to do your best. If you are eligible, the SACE Board will use the higher of your actual result and your derived result
- Loss of preparation time or reduced effectiveness of preparation because of illness are **not** grounds for the use of a derived result.
