

Stage 1 and Stage 2 modified subjects review

Individual teachers

Ensure student tasks are completed and marked
(final task can be pending completion)

Combine results to reach an assessment
decision for each student

Identify possible sample students in
your class with results in the 'completed' and
'not completed' assessment decision

Subject teachers together

Collaborate to determine no more than
one 'completed' and one 'not completed'
assessment decision.

If there are no 'not completed' assessment
decisions, two 'completed' assessment decisions
can be selected.

Teachers upload agreed samples and their teacher
pack to their class review submission sheet in
Schools Online. No action is required if there are no
agreed samples for students in your class.

One teacher submits the review submission sheet to
the Principal's Delegate on behalf of all teachers with
students enrolled in the subject.

Principal's delegate

Undertake final quality assurance
for each subject

Return review submission sheets to
individual teachers for changes if required, **OR**

Submit samples to the SACE Board
in Schools Online
