

Stage 2 subject preclusions

This information lists specific Stage 2 subject combinations that are precluded for SACE completion.

Overview

Two subjects are a precluded combination for SACE completion if they are defined by the SACE Board as having significant overlap in content. They cannot both count towards SACE completion.

If a Stage 2 subject is repeated, it can only count once towards SACE completion.

Where there is both a 10-credit and a 20-credit subject using the same subject code, these are precluded against each other. For example, 2CVA10 – Creative Arts and 2CVA20 – Creative Arts is a precluded combination.

The universities and TAFE SA place restrictions on the number of credits in the same study area that you can count towards the ATAR. See the current SATAC (South Australian Tertiary Admissions Centre) booklet Tertiary Entrance for a list of subject combinations that are precluded for ATAR purposes.
